PROFILE

Full-stack developer pursuing a B.S. in Software Development at BYU-Idaho. I build web apps with React, Next.js and Node.js on PostgreSQL, MySQL or MongoDB — including an e-commerce site in production for a real client. Technical work in elevator systems and manufacturing quality taught me methodical troubleshooting and attention to detail. Looking for a role where I can ship real features and keep growing as an engineer.

PROJECTS

Detalles DanKar CLIENT · LIVE — dankar.vercel.app
React · Node.js · Express · MongoDB · Zod · Cloudinary · Vision AI

- Built and shipped an online store for a handmade accessories shop in Pariaguán, Venezuela: the whole cart goes out in one WhatsApp message, priced in bolívares and dollars.
- JWT-protected admin panel where vision AI writes product descriptions from photos.

Accanto CONCEPT · LIVE — accanto-psi.vercel.app
Next.js · TypeScript · PostgreSQL · Prisma · Zod · Tailwind CSS

- Bilingual (Italian/English) reservation system for a fictional restaurant in Turin, with real-time table availability and self-service bookings.
- Admin panel with live table status, reports and CSV export; reminder emails, double-booking protection, CSRF, rate limiting and CSP.

Matchday LIVE — jfigueroa.dev/lab/football
React · React Router · Vercel Functions · REST API · Vitest

- Live standings and results: Europe's top leagues, Champions League, Libertadores.
- Serverless proxy keeps the API key off the client; caching keeps usage within a 10 requests/min limit; covered by automated tests.

Glossia LIVE — glossia-v2.onrender.com
React · Node.js · Express · MySQL · Google OAuth

- Language-learning app in 8 languages with a guided A1–A2 path, flashcards and a translator; grew from my WDD 330 final project into v2.

WORK EXPERIENCE

Delivery Driver — FedEx Contractor — 2025 – Present
Vitesse Logistics

- Deliver 100+ packages daily on time; optimize routes and resolve delivery issues in real time.

Product Inspector — May 2025 – Aug 2025
Old Castle

- Inspected products against quality standards and flagged defects to improve production.

Product Machine Operator — 2024 – 2025
Nutricost

- Ran production machinery and fixed minor technical issues under safety and GMP rules.

Elevator Technician — 2023 – 2024
Integral del Ascensor · Chile

- Diagnosed and repaired mechanical and electrical systems from technical diagrams.

English Teacher — 2015 – 2017
Anaco · Venezuela

- Planned and taught English classes, breaking complex topics into clear, structured steps.

VOLUNTEER EXPERIENCE

Volunteer Missionary — 2012 – 2014
The Church of Jesus Christ of Latter-day Saints

- Full-time service; developed communication, leadership and cross-cultural adaptability.
